

# BUBBLER PUMP

from CARRY PUMPS

**PREVENT** ice from forming around boats, docks, and other structures by providing constant circulation of the warmer subsurface water to the surface.

**PROTECT** your waterscape investment from the damages of winter ice and snow.

**KEEP** your fish and duck ponds open.

**BUBBLER PUMPS** can also melt existing ice.

## Efficient - Economical - Durable

- 1/2HP/1PH/115V 2-wire motor
- No control panel needed
- Requires Proper Circuit Breaker Protection
- Bronze Impeller for long life
- Tough PVC shroud with rope brackets
